Kick-Point®
fun & football

1

A colour monitor linked to our state of the art computer system allows you to choose the vast array of games and set ups you can play with Kick-Point. Each client or event can have a game tailored to meet their specific requirements, thus enabling you to personalise their company or event.

2

Simplicity is the key to any game you play. 3 years to 103, anyone can play on Kick-Point. A ball, a goalnet and an ingenious computer system which records accuracy and power, coupled to visuals on a big screen gives you instant results... It's addictive. You've just got to try it again and again.

3

This award winning product uses the most advanced computer software, sensors and the "magic box" to allow you to pit your skills against your friends, colleagues or clients for the perfect day of sporting fun.

4

All your efforts are recorded on a personalised certificate. Show it to your friends. Have another go. Kick-Point brings the fun into football. A game for all ages and abilities.

Place the ball on the spot. Look at the crowd. The pressure is on.
3 shots, 3 goals, what's my score?
How fast, how hard is my shot?
Top corner 100 points, 70 kph. What a shot. Get the highest score.
Be the best.
I can do better than that – go on – have a go! Game on.

»The ultimate in football entertainment«

Kick-Point® – fun & football

Everyone loves football!
Everyone loves Kick-Point!
Company branding and Kick-Point go hand in hand.

A system for any event indoors, outdoors, sports days, skills coaching. A massive crowd pleaser. A hit everywhere we go.

Kick-Point has worked in conjunction with some of the best known brands in the world. Here we are with Mc Donald's at the European under 20's championships in Holland. As Mc Donald's say "I'm lovin' it!"

Sold to world class football clubs such as AC Milan, Kick-Point enables the club to give something to the fans before and after the game. Set up outside their stadium allows the fans to be their idols for a few moments. Might even find a star of the future.

Already having been a great success at the 2006 world cup and the Euro 2008, organizers have now booked for the 2010 world cup. „Fans need to be entertained at fan fests. Kick-Point definitely hits the spot.“

»Kick-Point® is so versatile – it can be tailored to any event.«

Small spaces – large spaces.
There's a Kick-Point for your event.

Kick-Point can be supplied in various sizes to suit all venues. Mini soccer, indoor events to the largest size 5m x 2m, with full safety nets. For all indoor & outdoor events.

The 5m x 2m goal construction with back and side nets set up on a fair.

3m x 2m goal construction shown with truss system for indoor and outdoor events.

T-Mobile event – Austria
A 3m x 2m goal/net construction outside UPC arena in Graz.

Kick-Point 5m x 2m football goal - SKY TV summer tour 2008 incl. branded truss arena.

»A Kick-Point® event will be remembered by all.«

A winner at any attraction.

Kick-Point offers a very attractive platform to combine entertainment and advertising. Advertising banners, logos and video's on the screen or the branded certificate print out are just some branding options.

Game results online

The individual game results of every single player can be transferred to your homepage after or during the event. The players can therefore follow their personal results and ranking getting the necessary information from a homepage. Interesting competitions around player of the day, player of the month or player of the tour can be created. This will also increase the specific homepage traffic.

Kick-Point offers a variety of different games to play. Different graphics like numbers or logo's can be placed on the screen as a target. You can also create your own quiz game that allows to include company specific questions and information.
